PROFILE

I speak fluent English and speak Danish at a conversational level. I am self-driven, curious, helpful and have worked in a collaborative environment. I have a masters degree in **ICTE** from Aalborg University, Copenhagen. I have been through a programming bootcamp on **React-Node-MySQL** and also recently up-skilled in **C# .NET** web programming. I work with passion and motivated to learn new technlogies. I have a praisable feedback from my previous studies, bootcamps and various job roles.

PROJECTS EXPERIENCES

Recent Projects   2023*

Blog Post: *interactive &responsive blog post template*

- **Main technologies used:** HTML,CSS and JavaScript
- **Lessons learnt:** use BEM method to keep standard HTML/CSS ids and class names

React Portfolio: *interactive & responsive portfilio*

- **Main technologies used:** React and the underlying technologies/libraries that includes HTML,SCSS, EmailJS,react-leaflet,react-loaders etc
- **Lessons learnt:** EmailJS, React-leaflet, React-loader, CSS animation, CSS tranformation and the stylesheet pre-processors SCSS structure

Projects at HackYourFuture   10/21 - 06/2022

Simply Spices: *HYF fInal project*

- **Main technologies used:** React, Node, CSS, MySQL, StoryBook, Swaggor, Express Knex, JIRA
- **Lessons learnt:** communication and collaborattion and the deadlines

Meal Sharing App: *HYF personal project*

- **Main technologies used:** React, Node, CSS, MySQL, Knex, Express
- **Lessons learnt:** *independent approach to deandlines*

Weather App: *HYF weekly project*

- **Main technologies used:** HTML, CSS, JavaScript
- **Lessons learnt:** work on free weather api using JavaScript

WORK EXPERIENCES

Servicemedarbejder   2017 - 2022
ISS-DSB • Fulltime

Skills: *SharePoint, Microsoft Power BI, knowledge on network switches, work on international environment, online meetings and webinars*

EDUCATION

Recent Trainings and Up-skillings   October 2021*

Hack Your Future • Training

Backend development

8 weeks C#, .NET web api programming at VISMA e-conomic, Copenhagen in collaboration with Hack Your Future Copenhagen (February 2023 - April 2023)

Achievements and expertise from the training:

- C#, ASP.NET fundamentals
- interfaces and classes
- async and await
- persisted data, database (MySQL)
- mealsharing personal project

Full-stack web development

34 weeks programming bootcamp from Hack Your Future(HYF), Copenhagen (October 2021- Jun 2022)

Achievements and expertise from the training:

- focus on software development, based on software technology and advanced programming
- focus on full stack web programming in recent tech-stack **(React,Node,MySQ**L) including for web and apps
- scrum project management and JIRA online
- participating in events, workshops, study groups with seniors, working on weekly assignments and projects
- intensive learning with fully practical skills on full stack web development
- participate on events, workshops & study-groups with seniors
- working on weekly assignments & projects

MSc eng ICTE (Innovation Communication Technology and Entrepreneurship)   Feb 2014 - Jan 2016

Aalborg Universitet • MSc engineering in ICTE

  Main points, competencies and learning lessions during the study:

- unique aspect of the ICTE : *the interplay between the market, the different aspects of a user, the regulations and the communciation technologies*
- engineering solutions : *Intensive focus on innovative engineering solutions using current technologies i.e. web/apps/software development based on current software technology and programming*

Bachelor in web development   Jan 2012 - Jun 2013

ZIBAT, Campus Roskilde • Professional bachelor

Main points, competencies and learning lessions during the study:

- web programming in recent web technologies (html and css) including Drupal and Umbraco CMS
- webpage design and development

COURSES

PRINCE2 Foundation   2017 - 2017

PEOPLECERT at info@peoplecert.org

  Main points and competencies during the course:

- Deep understanding of project management with a number of document types
- Organizational structure, different roles, activities and responsibilities
